BUREAU OF WATER CONTROL  
OFFICE OF THE

FEB 24 2010

We have a farm at 215 Seymour Road Woodbridge, Ct. We have been here for 37 years and have been irrigating our plants in the summer from Bladens Brook.

We are concerned about new regulations that would limit our use of water during summer droughts. This is the time farmers need water the most, and nothing is more important to a Farmers Livelihood than water. Agriculture should be an exemption.

Thank You, Robert Hohman

A handwritten signature in black ink, appearing to read "Robert Hohman".
